ADIRTHA BORGOHAIN

A highly motivated, skilled and knowledgeable computer science student with extensive knowledge of programming and computer applications. Looking for opportunities in the field of information technology as a computer programmer in renowned organizations.

Address: CMH 241, Tezpur University, Tezpur, Assam, India - 784028
Contact: 91-8723912165
E-mail: adirthaborgohain@gmail.com
Github: https://github.com/AdirthaBorgohain
LinkedIn: https://www.linkedin.com/in/adirtha-borgohain/

EDUCATION:

Bachelor of Technology – *Computer Science and Engineering*	*Tezpur University, Tezpur, Assam* **CGPA** - *8.31*	2016 - 2020
HSSLC (12th) *Science*	*Salt Brook Academy, Dibrugarh, Assam* **Percentage** - *90.60%*	2013 - 2015
HSLC (10th)	*Holy Name School, Sivasagar, Assam* **Percentage** - *87.33%*	2013

EXPERIENCE:

Kharagpur Winter of Code (KWoC) — Dec 2018 – Jan 2019
Contributor — https://github.com/NITDgpOS/Medium_Grabber.

- Opened 4 Pull Requests and made 6 commits which were successfully merged .
- Worked on a project "Medium Grabber" - A python based web/terminal app to fetch medium articles.

HACK-A-BIT 2018 Finals — Oct 2018
Participant — https://github.com/BugHoppers/FEEL_SAFE.

- Worked on "Feel Safe"- A mobile app for getting know of mishaps and situations around an unknown locality, as a part of HACK-A-BIT, East India's largest student hackathon. It has the functionality of reporting crimes and accidents directly from the app with the click of a button.

Geminid Systems Inc. — June 2018 – July 2018
Software Developer Intern

- Mobile Development using React Native and CRM Product Development with Front End Technologies.
- Automation Test for Web Applications using Selenium Web Driver in Single and Multi Threaded Applications.

Snehalaya – House of Love — June 2017
Social Research Internee

- Received the opportunity to interact with the kids there as well as learn from them on a day to day basis.
- Helped in getting to know about the day to day hardships people face in their lives and how to deal with them.

PROJECTS:

DROWSINESS DETECTOR — Python, Keras, OpenCV
Application that uses Machine Learning and Image Processing. — https://github.com/BugHoppers/drowsiness-detector

- Application that detects drowsiness of people and alerts them. Probable use case in vehicles so as to avoid accidents.

GOD'S EYE — Python, OpenCV
A hack for Linux based systems — https://github.com/BugHoppers/gods_eye

- An alternative to the sudo command in linux systems that uses facial recognition for superuser access instead of passwords.

RECOMMENDER SYSTEM — Python, PyTorch
A Recommender System using Deep Neural Network — https://github.com/BugHoppers/recommender

- Recommender System built using autoencoder that predicts ratings of users based on movielens dataset.

SOUNDHAVEN — Angular, Electron, Javascript
A native cross platform music player in Electron and Angular 5 — https://github.com/AdirthaBorgohain/SoundHaven

- A cross platform music playing desktop app.

PAYROLL MANAGEMENT SYSTEM — PHP, SQL
A database system made using OracleSQL and PHP. — https://github.com/AdirthaBorgohain/Payroll-Management-System

- Payroll management system that uses OracleSQL which keeps track of all the transactions and details of the employees of an organisation.

TURS WEBSITE DEVELOPMENT — HTML, CSS, Javascript, AngularJS and Django
Tezpur University Robotics Society — http://turobotics.pythonanywhere.com/

- Developed a website for the robotics society of Tezpur University.

TECHNICAL SKILLS:

Languages: C, C++, PYTHON, MATLAB, DART, PHP, SQL, HTML, CSS, JAVASCRIPT, TYPESCRIPT
Frameworks/Tools: DVCS, ANGULAR, REACT, FLUTTER, TENSORFLOW, PYTORCH, NODEJS, ANGULAR JS, SELENIUM WEB DRIVER
